NBalance OÜ offers suitable solutions for non-VAT registered companies, including startups, micro-enterprises, and small businesses.

NBalance OÜ is not a VAT-registered company, so the 24% VAT will not be added to Your invoices, unlike with large accounting firms, meaning You won't have to overpay.

If You haven't found a suitable package, send us a message and we will prepare a personalized offer tailored to the specifics of Your business.

We communicate in three languages: Russian, English, and Estonian, which is especially important for foreign entrepreneurs (e-Residency).
